Java Developer

Results-driven Java & Spring Boot Developer with professional experience building scalable enterprise applications using Java 17/21, Spring Boot 3+, JHipster, and Angular. Proven expertise in securing RESTful APIs with Spring Security (JWT), executing complex database operations via Hibernate/JPA and PostgreSQL, and bridging enterprise architectures with SAP JCo/RFC integrations. Adept at automating business-critical reporting with Jasper Reports and delivering clean, maintainable full-stack solutions.

Skills

- **Languages:** Java 17/21, TypeScript, SQL, HTML5, CSS3
- **Frameworks:** Spring Boot 3+, JHipster, Angular 21, Spring Security
- **Enterprise & Integration:** SAP JCo 3.1, RFC (Remote Function Call), Jasper Reports
- **Frontend & UI:** Tailwind CSS, Prime-NG, Bootstrap
- **Databases & Tools:** PostgreSQL, MySQL, Git, Maven, Postman

Professional Experience

Richa Global Export Pvt. Ltd.

Apr 2025 – Present

Java Developer & Spring Boot Developer | Spring Security, JWT | SAP JCo & RFC Integration

Gurugram, India

Roles and Responsibilities:

- Engineered a robust integration layer using SAP JCo 3.1 and RFC to enable real-time data exchange between Spring Boot services and SAP modules.
- Implemented JWT-based authentication and role-based authorization using Spring Security.
- Maintained core infrastructure for R-Connect, an enterprise application utilizing Java, Spring Boot, and the JHipster framework.
- Architected secure RESTful APIs and complex business logic to support scalable enterprise operations.
- Spearheaded a full-stack ticketing module within R-Connect. Developed logic for ticket creation, status transitions (**Assignment, Reassignment, Reopening**), and history tracking.
- Optimized performance and managed complex relational database structures in PostgreSQL and MySQL using efficient SQL and Hibernate/JPA.
- Automated a dynamic reporting engine with Jasper Reports, reducing the document generation time for mission-critical PDF/Excel document outputs by 40%.
- Collaborated on Angular integration using Tailwind CSS to ensure seamless data flow and interactions.

Relevant Projects

Oct 2025 – Present

Sample Trace Management System

Gurugram, India

Roles and Responsibilities:

- Integrated SAP RFC modules into the server-side logic to automate data lifecycle management from API submission to enterprise storage.
- Developed robust REST API endpoints with comprehensive real-time server-side validation to ensure system security and data integrity.
- Improved a centralized reporting module using Jasper Reports, automating the generation of high-fidelity business documents and technical summaries directly from the production database.
- Built responsive forms with real-time validation and custom autocomplete components

using Prime-NG and Tailwind CSS.

- Integrated Jasper Reports to automate production-ready business documents, reducing manual data Entry by 40%.

R-Connect

Gurugram, India

Roles and Responsibilities:

- Integrated SAP RFC modules into the server-side logic to automate data lifecycle management from API submission to enterprise storage.
- Architected secure and efficient data processing workflows using Java and JHipster to support heavy, concurrent enterprise usage.
- Engineered dynamic, reusable Angular components and a recursive nested menu system, significantly reducing code redundancy and improving navigation UX across the R-Connect platform.
- Built responsive forms with real-time validation and custom autocomplete components using Prime-NG and Tailwind CSS.
- Collaborated on UI updates and component integration utilizing Angular to support overarching backend feature rollouts.
- Implemented JWT-based authentication and role-based authorization using Spring Security.

Personal Portfolio:

- Deployed a responsive personal portfolio at astro-portfolio.himanshusoxo.workers.dev to showcase technical projects and integration capabilities.

Education

- Master of Business Administration (MBA) | Dual Specialisation (Pursuing)
- Bachelor of Computer Application (BCA) - 2022 | **CGPA – 7.5**
